

SHAHEEN WAQIBEEN

IT & CYBERSECURITY PROFESSIONAL

Houston, TX | 346-277-5877 | shaheenwaq@outlook.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

IT and cybersecurity professional with experience in technical support, IT administration, website maintenance, network and security activities, troubleshooting, and technology-enabled operations. Skilled in hardware/software support, data and network monitoring, vulnerability assessment, website updates, user support, and technical documentation. CompTIA ITF+ certified with Google Cybersecurity and Google IT Support training, an Associate Degree in Computer Science (Cybersecurity), and current PhD studies in Technology Management with a specialization in Cybersecurity at National University.

TECHNICAL SKILLS

Cybersecurity: Threat Analysis | Vulnerability Assessment | Penetration Testing | Security Risk Assessment | Anti-Phishing | Malware Awareness | Data Protection

IT Support: Hardware/Software Troubleshooting | User Support | Ticket Resolution | System Maintenance | Data Backup | Virus Checks | Computer Labs

Web & Technical: HTML | C | C++ | PHP | Java | Shell | MySQL | Website Hosting & Maintenance | MS Access

Tools/Concepts: Computer Networks & Security | Cryptography | Application Security | Identity & Access Management | SQL Injection | DoS | Sniffing | Session Hijacking

PROFESSIONAL EXPERIENCE

Security Analyst | Independent Technologies | 2010–2019 | Kabul, Afghanistan

- Monitored data and network traffic to identify threats and malware and supported security analysis activities.
- Monitored customer support tickets and assisted customers with first-level issue resolution.
- Supported anti-phishing campaigns designed to protect user data.
- Prepared weekly threat reports for clients and stakeholders under senior analyst supervision.
- Coordinated vulnerability assessment and penetration testing activities on networks and web servers.
- Communicated identified vulnerabilities and supported the security development team with remediation and patching.

IT Assistant / English & Computer Instructor | USAID Afghan Rule of Law Project (ARoLP) | 2007–2009 | Kabul, Afghanistan

- Designed and established computer labs for legal professionals at Polytechnic University and Kabul University.
- Provided IT assistance to users and supported computer systems and peripherals.
- Installed and maintained hardware and software, conducted virus checks, and performed data backups.
- Troubleshoot network, software, and hardware issues to minimize downtime.
- Instructed students and faculty in English and office software applications.

Computer / Database & Technical Roles | Supreme Court Afghanistan; Afghan Red Cross & Red Crescent Society | 2005–2006 | Afghanistan

- Served as Secretariat & Database Officer at the Supreme Court of Afghanistan.
- Worked as a Computer Instructor supporting users and computer-based learning.

ADDITIONAL TECHNOLOGY EXPERIENCE

Marketing & Communication Specialist | Hilal Electric | 2016–2017 | Afghanistan

- Updated the company website and supported website design.
- Developed marketing and technical materials.

CEO / Technical & Operations Roles | Blue Chip Construction Company; Titan Technical Company | 2012–2015 | Afghanistan

- Updated company websites.
- Developed technical and cost proposals and supported procurement and reporting.
- Organized staff and supported field/site activities.

EDUCATION

- PhD in Technology Management, Specialization in Cybersecurity — National University | Present
- Associate Degree in Computer Science (Cybersecurity) — Houston Community College | 2026
- Cyber Security C1 — Houston Community College | 2025
- MBA — Kardan University | 2021 U.S. Equivalent Credential Evaluation Completed
- BSc Economics — Kardan University | 2018 U.S. Equivalent Credential Evaluation Completed
- BA Journalism — Kabul University | 2017 U.S. Equivalent Credential Evaluation Completed
- 12th Grade — Estiqlal High School 2007 U.S. Equivalent Credential Evaluation Completed

CERTIFICATIONS & TRAINING

- CompTIA: CompTIA Security+ 2026 | CompTIA ITF+ 2024
- Cisco Networking Academy: Enterprise Networking, Security, and Automation | Operating Systems Basics | Computer Hardware Basics | Industrial IoT and Control Systems in Energy | Creating Compelling Reports | Engaging Stakeholders for Success | Linux Essentials | Getting Started with Cisco Packet Tracer | Networking Basics | Network Defense | Network Security
- Coursera: Google Cybersecurity Certificate — 2025 | Google IT Support — 2024 | Google AI Essentials 2026
- Cybersecurity and Infrastructure Security Agency (CISA): 100W – Industrial Control Systems (ICS) Cybersecurity Practices (FY24) | 210W-01 – Differences in Deployments of Industrial Control Systems (R4) | 210W-02 – Influence of IT Components on Industrial Control Systems (R3) | 210W-03 – Common ICS Components | 210W-04 – Cybersecurity Within IT and ICS Domains (FY21) | 210W-05 – ICS Cybersecurity Risk | 210W-06 – ICS Cybersecurity Threats | 210W-07 – ICS Cybersecurity Vulnerabilities | 210W-08 – ICS Cybersecurity Consequences (FY21) | 210W-09 – Attack Methodologies in IT & ICS | 210W-10 – Mapping IT Defense-in-Depth Security Solutions to ICS – Part I
- Npower: Tech Fundamentals — 2024
- Perscholas: Cybersecurity using AI Tools — 2026
- Other: Certified SDET Software Development in Test — 2023 | MCSE / IT Diploma / MS Access & Website Design | ILO, New Delhi, Training on Private Sector Development through Value Chains in Fragile Settings, 2018 | RUB University, APPRO, Training on Public International Law (5 Credit), 2019
